SEE ATTEMPT TO TAKE MAN'S LIFE

Whiskey Left at Will Dunn's Home
Near Andersonville Found to
Contain Strychnine

PROSECUTOR INVESTIGATES

Oscar Raham, Brother-in-Law, Took
Drink of it and Has Convul-
sions—Life Saved

The prosecutor of Franklin county, it has just developed today, has been asked to investigate a mysterious circumstance relative to the mixture of strychnine with some whiskey that was left by some unknown person at the home of William Dunn, near Andersonville, and a very small portion of which was drunk by Dunn's brother-in-law, Oscar Raham, nearly causing his death.

Dr. Henry C. Metcalf of New Salem was called when Raham was suddenly stricken after drinking the whiskey. He called his father, Dr. Henry D. Metcalf, in consultation and found that it was a plain case of strychnine poisoning. The man was saved, but because of the mystery surrounding the introduction of the whiskey to the Dunn home, it was sent to the state food and drug commissioner.

W. D. McAbee, state chemist, examined the samples sent by Dr. Metcalf and found that it contained traces of strychnine.

The whole episode is clothed in mystery. William Dunn, who is a very old man, had been away from home the day previous to that on which Raham was stricken. He says that he brought home nothing to drink, but the next morning he discovered in his buggy two bottles of beer and a half pint of whiskey.

Raham was working at the home of Dunn that day and about four o'clock in the afternoon was very fatigued. Dunn says that he drank the beer when he found it, but that he did not touch the whiskey. Dunn told the physician that Raham looked so bad that he gave him a couple of drinks out of the bottle of whiskey. In twelve or fifteen minutes Raham was stretched out on the ground with what the doctors determined was strychnine convulsions.

Just what the Franklin county prosecutor has learned about the case is not known, but it was generally felt that an attempt was made on Dunn's life.

OLD BOND IS CONTINUED

Elmer Hite is Arraigned on Two
Grand Jury Indictments..

Elmer Hite, indicted by the Marion county grand jury on charges growing out of the confession of George Davis, owner of the Clarksburg garage, was arraigned yesterday, but entered no formal plea and was released under bond. The bond in these two cases was the same as when he was first released, the court simply continuing the bond. Hite was taken to Indianapolis yesterday by Sheriff Cavitt. The indictments charge him with burglary and with receiving stolen goods. It is not known here whether Harry Flodder, the other Rushville boy involved, was indicted or not. His attorney had received no word.

Miss Mary Driscoll is critically ill at her home in Washington street.

FUNERAL TO BE HELD FRIDAY

The Rev. V. W. Tevis Will Perform
Last Rites at Havens Home.

The funeral services of William E. Havens, who died yesterday in Buffalo, N. Y., following a stroke of apoplexy, will be conducted Friday afternoon at three o'clock at the late residence, 311 West Second street, by the Rev. V. W. Tevis of Martinsville, assisted by the Rev. W. M. Whitsitt. Burial will take place in East Hill cemetery. The remains arrived here this morning at eleven-thirty o'clock and were immediately taken to the late residence. Friends may call any time up until the funeral hour.

HEALTH BOARD TO MAKE INSPECTION

Dr. E. I. Wooden Announces Resi-
dents Should Clean up Premises
to Avoid Embarrassment.

WOULD PREVENT EPIDEMICS

The city board of health today announced through the secretary, Dr. E. I. Wooden, that to save themselves any embarrassment, the people of Rushville had better clean up their premises because the board intends to make an inspection of the city soon and any unsanitary conditions found will have to be remedied. The board said that it would compel residents to clean up any unhealthy places that were found.

Dr. Wooden said that this step would be made to take every precaution against epidemics of typhoid fever or infantile paralysis. Since an epidemic of the latter disease is sweeping Greater New York and a few cases have been found in other localities, the health board is especially desirous of guarding against it.

Dr. Wooden said that residents should get rid of their manure bins and clean up all other refuse about their places. He warned against throwing garbage or any decayed animal matter in alleys.

DEUTSCHLAND IS STILL AT HER PIER

Either Alarming Information or
Good News Causes Deutschland
To Remain Here

ORDERS TO LEAVE HELD UP

Baltimore, July 27.—Either alarming information or good news of the submarine Bremen kept the Deutschland in port today. Which it was the managers of the submarine refused to say.

Orders for the vessel to go out over night were suddenly countermanded.

Inasmuch as news of the Bremen was the determining factor in the matter of the Deutschland sailing, it was accepted as true that at least the Deutschland sister ship had been heard from.

Perhaps, it was said, the Bremen had met with a mishap and that the Deutschland would not make an attempt to run the allied patrol. On the other hand it was suggested cheerful information determined the managers to wait a little while on the Bremen's coming.

DROPS DEAD AT HOME NEAR HERE

Henry Clevenger, Age 53, Expires
Suddenly of Heart Disease
While Hitching up Horse

TWO ATTACKS PREVIOUSLY

One Suffered Last Night But he
Arose This Morning in his
Usual State of Health.

Henry Clevenger, 53 years old, dropped dead this morning at about six-thirty o'clock in the barn yard at his home, southwest of the city. Death was caused from heart disease. He suffered two attacks from his heart previous to the fatal attack.

About two weeks ago he was overcome while at the fair grounds and was brought to a physician's office here where he was revived. Last night after eating supper he had an attack but it was not serious and this morning he arose, appearing to be in his usual health. He went to the barn preparatory to starting the day's work, and after harnessing a horse and coming out in the barn lot, he dropped to his knees gasping for breath.

One of his sons came hastily to this city after a physician but Mr. Clevenger lived only a few seconds and was dead before medical attention reached him. A postmortem was held, showing the cause of death.

Mr. Clevenger was a son of the late Harvey Clevenger and was widely known over the county. In the recent primary he was a candidate for the nomination of sheriff on the Republican ticket. He was a resident of this city and county all his life. He is survived by his widow and several children.

The funeral services will be conducted Saturday morning at ten o'clock at the late residence and burial will take place in East Hill cemetery.

LARGER CROWD IS OUT SECOND NIGHT

Various Amusement Stands and Re-
freshment Places as Well as
Show Well Patronized

ENTIRELY NEW SHOW TONIGHT

The second night of the Catholic carnival was better attended than the opening night and the various amusement places and refreshment stands today reported a fine business. The country store sold out again and the business of restocking today occupied the attention of the managers of the store. The ferris wheel is proving to be one of the best attractions that the carnival ever had.

The plan to give a different home talent show each evening, one of special merit, is meeting with great favor and both nights thus far have been well patronized.

Tonight "That Rascal Pat," will be presented by a caste composed of Miss Marie Perkins, Miss Margaret Kelly, Michael McCoy, Tom Geraghty and Will Fitzgerald. Last night, "Who is a Coward?" was well patronized, both performances being to crowded houses. Tom Cooning, Mary Moorman and Ed O'Neil completed the caste last night.

LOCAL BOYS MAY BE SENT HOME

There is Chance That Unit Com-
posed of College Students Will
be Withdrawn Sept. 1

BATTERY B IN THIS CLASS

However, None From Here is College
Students and May Have to
Show Their Intentions

Rushville boys with the Indiana National Guard on the border may get to come home within a month, according to dispatches today from Washington. It is authentically stated that college men and organizations composed of college students will be the first units to be withdrawn from the border service.

This means that Battery B, known as the Purdue university battery, will be among those to be mustered out of the United States service about September 1, if conditions at the time are not such that will make necessary the retention of the whole guard.

All boys from here who enlisted in the national guard became members of Battery B. They are Walter Gartin, Allan Blackledge, Dr. Hale Pearsey, Frank Owens and Fred Beale, Jr.

At the same time since none of the Rushville boys are students in Purdue, it is possible that they might not be mustered out because the statement was the war department says that all guardsmen who can show a bona fide intention of enrolling in some institution of learning or returning to their studies, will be mustered out according to this regulation, and a special effort will be made to have them enlist as members of the officers corps.

"In this way," the announcement reads "advantage will be taken of the fine material which the college students offer; they will be reserved material which the college students offer; they will be reserved for great emergencies without interference with their educational development, and the national guard will be relieved of embarrassment of containing units, all of which are not to close their classrooms."

At present there are a great many students among the guardsmen. Several organizations are distinctly student organizations, representing some school or college. Hardly a large university in America is not represented by at least a company. Unless these men are released in time to resume their fall studies many professors will have to close their classroom.

This ruling of the war department will affect a large number of students from Indiana colleges and universities, who are with the Indiana troops in Texas. It will also permit practically the entire Bloomington company to return home, and will also permit the students who make up the Lafayette battery to get back in time for the opening of Purdue university.

Officials of the war department were told that this distinction of preference and that workingmen would say that the students were the beneficiaries of discrimination.

"These young men," said the official, "are in the formative period of their lives. Any interference with their studies will warp their careers. The border service is merely a temporary loss to other members of the guard."

Provision is made in the department's plan for the student's enrollment as members of the officers reserve corps.

NEW HEAT WAVE RECORD

Will be Longest in History if Mer-
cury Doesn't Tumble Quickly

(By United Press.)
Chicago, July 27.—While reports of heat suffering poured in from all parts of the middle west and west today, the mercury continued its upward climb. Another searcher was tomorrow's prediction by the weather bureau.

Unless the mercury tumbles quickly, this will be the hottest July in the history of the middle west. Government records show the present heat wave is the longest since 1871, as far back as the records go.

HIGH MARK IS SET FOR SUMMER TODAY

97 in Shade is Temperature Record-
ed Here Shortly After one
O'Clock This Afternoon

BREEZE HELPS OUT SOME

The high mark for the summer was set today when temperatures of 97 degrees were registered by downtown thermometers. Those which were in the sun or even covered by awnings recorded temperatures of 102 and 103. A slight breeze helped some to relieve conditions.

Yesterday was the hottest day of the year up to that time, according to the government thermometer at the home of Elwood Kirkwood, near Mauzy. The temperature reached 96 degrees at about one o'clock yesterday afternoon. The mercury had a good start upward in the tube this morning, and it was at first believed it would not surpass the 96 mark of yesterday.

Several thermometers in Rushville showed a similar temperature and many others showed even a greater heat yesterday. At least one thermometer in the business district showed 96 degrees yesterday. The highest previous temperature of the summer was on Tuesday when 94 degrees was registered.

JURY RENDERS A VERDICT FOR BEVER

Finds That he Did Not Violate Muf-
fler Cut-Out Ordinance, as
Charged by City

COUNCIL TO DISCUSS LAW

The jury in the case of the City of Rushville against Roy Bever, to collect a penalty for operating an automobile with the muffler open, returned a verdict for Bever after being out for over an hour. The verdict was returned shortly after five o'clock Wednesday afternoon.

The jury took several ballots and at first stood four to two in favor of Bever. The case required most of the day to try. A large part of the time was taken up with argument and when the case reached a point where the city was ready to introduce testimony the defense would not admit the ordinance in record and it was necessary to call the city clerk to identify the ordinance to the jury.

It is likely that the muffler cut-out ordinance will be discussed at the next council meeting and either be repealed or amended.

AGED MAN TRIES TO KILL HIMSELF

Philander M. Witters of Near Milroy
Slashes Throat With Razor
and Then a Saw

ATTEMPTS UNSUCCESSFUL

Recently Declared Insane Because
of Worry Over Financial Mat-
ters—To be Taken Away

Philander M. Witters, recently declared insane and under guardianship in the circuit court, this morning made two unsuccessful attempts to commit suicide by cutting his throat, at his home a short distance west of Milroy.

Mr. Witters, who is about sixty years of age, has a weakened mind due to worry over financial matters. It is said that he once owned a farm near Milroy and that he had lost it all.

Mr. Witters first tried to slash his throat with a razor this morning, but it was taken from him before he did himself very great harm.

In the meantime Sheriff Cavitt had been called from this city because Mr. Witters had become violent. It is said that after the sheriff arrived the aged man snatched up a hand saw and tried to finish himself.

He did not injure himself greatly with the saw before it was taken away from him. Because of his signs of insanity displayed today, Mr. Witters will be taken to the Southeastern insane hospital at Madison in the morning by the sheriff.

Mr. Witters was lately declared insane because it was not believed that he was capable of attending to his affairs. After the inquest determined his mind was not right, a guardian was appointed.

Mr. Witters lived at the home of his daughter, Mrs. Ruth Huey. It is said that he once before attempted to take his life but did not injure himself badly and that he has on several occasions since that time openly threatened to take his life.

MAYOR BUNCH MAY KNOW FATE TONIGHT

Jury Will Get Muncie Graft Case at
5:30 p. m. Today, It Was Ex-
pected Earlier in Day

CLOSING ARGUMENTS MADE

(By United Press.)
Muncie, Ind., July 27.—Mayor Rollin H. Bunch may know his fate tonight. The jury which heard evidence of his alleged conspiracy to solicit and accept bribes will retire at 5:30 p. m.

At that time it will have heard seven hours of argument. Judge W. A. Thompson, special prosecutor, arraigned Mayor Bunch and appealed to the jury to save Muncie from "its reign of lawlessness."

Phil O'Neil of Anderson, for the defense, hit back at the state, alleging that the prosecution is founded on "foul and disreputable motives" and "on perjury from beginning to end."

Mrs. Henry O'Reilly of near Gings who has been ill for the past few days is somewhat improved.

PAY A LITTLE MORE AND GET A LOT MORE

Don't put a mortgage on your judgment in buying a car.

There's many a man in this county who paid too low a price for his car—and lived to regret the day.

I am not saying anything against low-priced cars. There are a number of good ones. They do the job well.

I am trying to get people to get a bird's-eye view of the motor car situation instead of a worm's-eye view.

Sometimes by paying a hundred or two hundred more you get \$500 extra value.

I refer now to the 1917 3400 r. p. m. Chalmers. Here's a car that has been run more than 1,000,000 miles in the hands of owners, yet attained a service record of 99.21% perfect.

That is the mark of a great car. And though it costs, possibly, a little more than you ever paid for a car before—remember that extra little sum gets you from the zone of a fair car to the zone of a great car.

It is not only money in your pocket in the long run, but pride everywhere you drive. There's a pleasant and interesting satisfaction in driving a regular car.

Price \$1090 Detroit—really a \$1400 value.

SENATE REVERSES
WEDNESDAY'S VOTE

Strikes Out of Army Bill Provision
to Permit Guardsmen on
Border to Vote.

A POINT OF ORDER IS RAISED

(By United Press.)
Washington, July 27.—Reversing yesterday's action the senate today struck out of the army bill a provision to permit militiamen on the Mexican border to vote for president, vice-president, senators and congressman.

Senator Jones of Washington first attempted to amend yesterday's provision so that the failure of guardsmen to register before leaving for the border would necessarily debar them from voting.

Senator Williams raised a point of order against the whole amendment on the ground it was general legislation and not properly a part of the appropriation bill. Vice-president Marshall and the senate sustained the point.

Days Pickings

Carl Weingard, living on the Joe Harton farm, is ill with typhoid fever.

Mrs. John Ward of North Main street, who has been ill for a long time was taken to Indianapolis this morning for the purpose of undergoing an X-ray examination.

Amusements

Tonight at the Gem the 13th number of the Pathe serial "The Iron Claw" will be shown. This one is entitled "The Hidden Face." As usual Pearl White, Creighton Hale and Sheldon Lewis are featured. The other picture is a Lonesome Luke comedy entitled "Luke Lugs Luggage." Tomorrow King Baggot will play in "The Haunted Bell" a two act Imp drama and Eddie Lyons will be seen in a Nestor comedy entitled "Eddie's Night Out."

The Princess offers an all comedy program tonight. The first is a three reel feature entitled "Miss Adventure." Mary Anderson, Webster Campbell and Anna Schaffer are featured. It is a story of three sisters and a young man who makes love to all of them. The mix-up is very funny. The other is a Rose Melville comedy "An Innocent Vampire." Tomorrow, matinee and night the feature picture "Unto Those Who Sin" will be shown. Fritzi Brunette is featured. The story is a tale that is sordid and yet fascinating. It is a sermon that is too often unheeded. The acting is said to be especially fine.

Carranza and Villa.

A great many people who love peace seem to think that the situation in Mexico is quieting down and that it will be but a few weeks before the troops will be withdrawn from the border.

It is one thing to think, but quite another to realize upon these expectations.

Let us look at the facts as they exist.

All Mexicans hate the United States, Carranza and Villa included.

Carranza is "being good" just now because he wants to borrow money in this country and knows he can not do so if he is at war with us. Once he gets the money, he is then free to turn his guns upon us again.

Villa hates us with an enmity that is undying in its intensity. He is without scruples and has sworn to kill every American who crosses his path.

He is collecting another large army and is defeating the Carranza forces wherever they are encountered, while many of the latter are flocking to the Villa standard.

It is almost a certainty that in time Carranza will lose his power, which now is tottering, leaving Villa in supreme control.

Then nothing will prevent the march against the United States of Villa and his vast bandit horde, spreading terror and devastation along the border in case our troops are removed.

Looking at it purely in the light of facts as they exist, can you see even one ray of sunshine in the clouds that are gathering to the south of us?

"The Bulletin," which is the political dope-sheet issued by the Democratic National Committee for the guidance of Democratic editors, carries this line: "Editors are invited to submit suggestions for the improvement of The Bulletin." We have one suggestion to make. It is that the "Bulletin" discard the policy of the administration to try to fool

To James Whitcomb Riley

Three shadows walked along the shore
Of Death's relentless sea,
And talked in weirdly wistful words
Of days of memory.

One said with voice of vaunting pride:
"Now wherefore should I sigh?
My word has made and broken thrones;
A diplomat was I."

Another spoke complacently:
"Death has for me no sting;
In life the world lay at my feet;
I was a money king."

The third low ventured timidly:
"My lot was not so high:
No power and little wealth was mine;
A humble bard was I."

But even as they murmured there
Of destinies of yore,
A universal shout arose
From Earth's receding shore.
Two spoke with clear expectancy:
"We'll hear who's blest with fame."
The poet smiled a strange, sad smile—
The echo lisped his name.

—Earl Marlatt.

somebody. For instance, in the "Bulletin" of date of May 15, there is an article headed "The Republican Platform," which is a pure fake. It was written by some Democratic smart-Aleck and printed in a style to make people believe that it is the platform of the Republican party for 1916. It will be a dull man, indeed, who is deceived by such practices.

When Vance McCormick gets his movie films of the Wilson administration in operation we certainly hope he will have a spirited film showing the sinking of the Lusitania, together with a set of "close ups" depicting Wilson in the White House, his face marked by grim determination and his fingers feverishly playing on the keyboard of the rickety typewriter which he for so long a time deemed an adequate defense for this country against any danger.

Soldiers who have families dependent upon them are being discharged from the regiments on the border. In time, no doubt, unless something "breaks loose," the dependent families will multiply many fold. Plowing corn on a hot day is no sinecure, but it is a paradise compared to patrolling the border with no immediate scrap in sight.

No matter how troubled the waters may be, if you look you can always find a stone upon which to step or a harbor in which safety may be found. Life holds more joys than sorrows for those who cultivate an open mind.

A little sunshine in a shadowed life is as precious as gold to the miser. Give of your abundance to those who are starving for joy, and the world will be brighter to you for your act.

If you would know something of the inner workings of your neighbor's home, just note the attitude of his dog and cat. Their actions tell the story.

The lad who sticks to the farm in youth will find the dollars clinging to him in old age.

tack the Centennial idea on to an industrial fair and street carnival. Here is an acid test of a community's spirit of patriotism. It is a question of heads or tails. It is a question of whether loyalty to state and deference to those who have made it, shall be strong enough and noble enough in a community to demand that the Centennial ideal shall dominate all else, or whether it shall merely furnish the tail of the kite of the big round dollar. It is perfectly proper and desirable that our industrial interests receive recognition in the anniversary observance. But it is an entirely different thing to turn the latter over to some commercial organization to be made a side issue to an industrial exposition, carrying "high class" hippodrome attractions. Those counties and cities that refuse to compromise their celebrations by affixing the dollar mark, exalt themselves and do honor to their state. Heads win in 1916.

Centennial Head Lights.

Chairman Walter W. Bonner, the Greensburg banker, modestly admits that the Decatur County Centennial celebration, October 18-21, the last to be held, will eclipse all forerunners. Governor Ralston will deliver the big address, and has agreed to participate in the pageant which is being written.

One of the very first steps taken by the Indianapolis Celebration Executive Committee was to go square-ly on record by unanimous vote against everything in the way of street carnival and hippodrome amusements for the state celebration in October.

Don't take at par the bear stories of Centennial celebration deficits that flit so cheerfully through the press. For instance, in place of a loss of some \$1500 in a recent county celebration, inquiry on the part of the Commission revealed a surplus of one-third the reputed deficit, which will be used to mark suitably the historic places in the county.

An elaborate and excellent historical sketch of Parke county has been issued, which is edited and largely written by I. R. Strouse, editor of the Rockville Tribune and historian of the Parke County Centennial Committee. It is so far removed from the ordinary, commercialized county history as to awaken enthusiasm and delight. For example, there is but one exception to the rule that the picture of no living person shall appear therein, the exception being made in the case of Mrs. Elizabeth McCoy, who is in her one hundred and sixth year. The book, covering in an accurate and painstaking, as well as in an interesting way, the salient historical facts of the county, is a worthy and commendable "Parke County Memorial."

CENTENNIAL NEWS LETTER.

(Issued by the Indiana Historical Commission.)

The Centennial observance is furnishing a good yard stick measuring the communities of Indiana. In the first place, there are the two groups, much the larger of which, to the honor of our citizenship, comprises those which are observing the anniversary in some formal manner. The do-nothing few of the second group are self-eliminated from consideration.

In the second place, the do-something group may be subdivided between those which hold real Centennial celebrations, and those which

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally. It acts directly on the blood and mucous surfaces of the system. SNEEZERS ARE GETTING READY

National Hay Fever Association
 Meeting Will be Held in White
 Mountains This Year.

THOUSANDS WILL ATTEND

Report of President Shows Each
 Sneezer Sneezes Some Sev-
 enty-Five Times a Day.

(By United Press.)
 Bethlehem, N. H., July 27.—No-
 body nose how many members of
 the National Hay Fever association
 will attend the annual convention
 up here in the White Mountains Au-
 gust 31. But there are 200,000
 sneezers, sneezers and sneezers
 enrolled and a good many
 thousand of them will be here, from
 all over the country.

According to the report of Presi-
 dent John R. Pinover, these sneeze-
 ridden sneezers sneeze some seven-
 ty-three sneezes a day, for an av-
 erage of forty-one sneezes a day a
 year. This gives us 6 billion, 3 mil-
 lion, 200 thousand sneezes to look
 forward to this year. Most of these
 young explosions will as usual wait
 until they catch their victims in the
 middle of the preacher's prayer or
 some place like that before demand-
 ing expression.

In volume of noise these sneezes
 will be equal to seventeen European
 wars and a municipal trolley sys-
 tem. They will necessitate the use
 of six handkerchiefs per day per
 sneezer, a total of 1,200,000 fabries
 a day for the 200,000, or 50,400,000
 hankies to register the hay fever
 vote of ayes and noes for the sea-
 son.

Present and sneezing at the con-
 vention will be Henry Altman of
 East 87th street, New York, the
 noblest sneezer of them all. Altman
 has tried 100 remedies, including
 psycho-analysis, suggestive therapy,
 Bahamism, Yogism, astrology, os-
 teopathy, bleeding, hypnotism, auto-
 suggestion and automobiling, sing-
 ing, science and scores of others.

A number of rose feverites will be
 among the hays, the hays last year
 deciding by a straw vote to welcome
 them.

The case of the Texas member
 who sued his insurance company
 for double indemnity because he
 suffered complete disability for two
 weeks as the result of being hit by a
 sneeze germ while riding on a train,
 will be discussed.

DENOUNCES FOLKS WHO ROB THEIR CHILDREN OF SLEEP.

BY SAMUEL G. DIXON, M. D.
 (Pennsylvania Commissioner of Health.)

The present habit of turning night
 into day in our highly illuminated
 towns with all sorts of exciting en-
 tertainment keeps the nerves keyed
 high and upsets the equilibrium.

Children especially are apt to suf-
 fer from late hours. For the first
 two years of life, eating and sleep-
 ing are the two great essentials.

Babies should sleep from fifteen
 to twenty hours out of the twenty-
 four and older children from ten to
 fourteen hours. It is not an un-
 usual thing to see babies in arms or
 very young children being carried
 about until their parents' bed time.
 This is injurious to the children and
 cannot be made up by additional
 rest the next day.

Permitting children to remain up
 late is a strain on their nervous
 system which, while it may not be

immediately apparent, is bound to
 exert a detrimental influence in the
 long run. Oftentimes the ill effects
 are perfectly apparent to the intel-
 ligent observer.

Irritableness and any of the train
 of evils which result from an over-
 taxed nervous system may result
 from continually robbing the child
 of sleep. A regular bed time should
 be set for children according to
 their age, ranging from six o'clock
 for babies to eight for children of
 eight or nine and this should be reg-
 ularly adhered to. This is a matter
 of the utmost importance in estab-
 lishing a study constitution in child-
 hood.

With adults, irregularity and
 short hours of sleep are often a
 factor which predisposes to ill
 paucity for work with less than the
 individual who has an unusual ca-
 health. Occasionally one will find an
 ordinary amount of rest, but for the
 ordinary man or woman this would
 and disastrously.

WOULD TRY TO PREVENT CLINIC

Court Fight is Promised if Mrs. Sanger Opens Birth Control Campaign in Indianapolis

DIFFER REGARDING THE LAW

Dr. Keller Opposes Her Idea and Believes Majority of Indiana Women Feel the Same.

(U. P. Staff Correspondent.) Indianapolis, July 27.—If Mrs. Margaret Sanger, the New York advocate of birth control, follows out her announced intention of opening a birth control clinic in Indianapolis for the benefit of poor women she may face a hearing in court. Legal lights here are puzzling over the "obscene literature" status in the Indiana laws to see whether it applies.

Prosecutor Rucker of Marion county told the United Press today that if Mrs. Sanger opened such a clinic here it certainly would be investigated. He said if the Indiana laws apply, the application will be made.

Mrs. Sanger, it is understood, will not come to Indianapolis unless assured of some co-operation on the part of local women. Several women prominent in affairs were interviewed by the United Press today concerning the probable attitude of local women. Many of them thought Mrs. Sanger would not get far with her clinic.

Among those who opposed Mrs. Sanger's idea of birth control was Dr. Amelia R. Keller, president of the Women's Franchise League in Indiana. Dr. Keller said she opposed Mrs. Sanger's idea and believed the vast majority of Indiana women felt the same way.

Another woman mentioned the big crowd Mrs. Sanger drew when she spoke here during the National Conference of Charities and Corrections. She attracted so much attention that the street cars were full of the talk," said his woman. "I remember hearing two women discussing birth control. One woman said: 'I had intended going to hear Mrs. Sanger but, do you know, my husband put his foot down hard, saying I shouldn't go—that he did not believe in such rot. But I told him I certainly believed in birth control.'"

Dr. Marie Haslep, well known as an advocate of birth control, came to the front for Mrs. Sanger today. She declared that although the majority of local women might not stand back of the birth control idea, that was no sign they would not do so ultimately.

"The importance of birth control, one of the vital social problems of the day, cannot be overrated," said Dr. Haslep. "In my opinion immense benefits would accrue from a knowledge of contraceptives."

"The solving of many other problems would be made possible, or easier. Among these are eugenics and peace. Social movements as a rule begin at the top and permeate downward. This has been the case with the decline of the birth rate. It is already well marked in all classes except the very class we wish to sterilize. Many are using means injurious or perverse. Why not let these learn healthful ways and teach others desiring to know? It may be difficult but not an impossible task to find motives that will act upon the weak-minded or reckless—the only class this movement has not touched."

"The United States, I understand, is the only civilized country that has laws against the dissemination of information about prevention of conception."

"The work of introducing amendments to the federal and state laws is under way. This work may be hastened by showing our legislators the difference between preventing life (birth control) and destroying life (abortion,) and that it is a difference of kind, not degree. Our legislators, apparently—judging by

the law—consider abortion of much milder crime than imparting information about prevention of conception."

One woman up in franchise circles expressed the fear that information concerning birth control might reach minds that would abuse the knowledge.

AMERICAN FOOT FEELS PINCH OF WAR

Pocketbook of Consumer is Also Hit By Increasing Prices of Shoes Due to War.

ADVANCE IN ALL RAW HIDES

(By United Press.) Chicago, July 27.—Evidence of how the European war is pinching tender American toes and pocketbooks was shown here today at the closing session of the Illinois Shoe Retailers association.

O. L. Trichel, Jr., of Springfield, secretary, declared prices for shoes have jumped 20 to 40 per cent during the last year and it is up to the consumer to pay the price.

Demand for leather for shoes for the European armies caused the advance.

Tribel said tan calfskin for shoes retailing at \$5.00 sold at 30 cents a foot year ago and now brings 47 cents; men's dull calf leather, formerly 30 cents, now sells for 44 cents; white calf for women's shoes, formerly sold for 28 cents, now sells at 55, and so on down the line. Linings, lacings, eyelets and buttons also have advanced in price.

MUST PUT COVER ON RESERVOIR

State Board of Health Tells Elwood Company to do This or Disconnect Mains

LIKELY COMPLY WITH ORDER

Elwood, Ind., July 27.—Cover up or disconnect is the warning issued to the Elwood Water company by Dr. J. N. Hurty, secretary of the state board of health. The water company has received orders from the health board secretary to cover up its large reservoir near the city pumping station.

According to Dr. Hurty the Elwood reservoir is the only open one in the state which is now maintained in connection with a water works supply system and without a filtration plant. Unless the reservoir is covered the state board of health, according to Dr. Hurty, will take steps to force the water company to disconnect its mains from the objectionable reservoir.

EVEN SKATES GOING UP.

Indianapolis, July 27.—Indiana youngsters who have a proclivity toward roller skating are soon to think that war is just what General Sherman said it was, according to Indianapolis dealers in skates today. The prices of skates has gone skating upwards along with the price of beans and United States steel.

Ball bearing manufacturers, who turn out the little steel pills that make skating a luxury for millions of kiddies before the war dogs of Europe were unleashed, have found a greater profit in making shells and paraphernalia for Mars. As a result there will be no more skates for some time—except the slow, squeaky kind that are a terror to old women and sensitive ears as well as the children.

If you wish beautiful, clear, white clothes, use Red Cross Ball Blue. Large 2 oz. package 5 cts.

THIS EARL WAS NOT BAD SCOUT

American Tobacco Salesman Astonished Britishers by Showing Him How to Roll Bones.

HAPPENED ON LINER ST. LOUIS

Also Invited Him to "Have a Little Something"—Recently Returned From This Country.

(U. P. Staff Correspondent.) By J. W. PEGLER

London, July 3.—(By Mail)—An Earl isn't a bad sort of scout at all. Joseph Eichwald, a San Francisco tobacco salesman, called the Earl of Limerick "Earl," invited him to "have a little something" and got away with it while astonished Britishers gaped in amazement.

Further than that, the dice-box being handy, he taught the Earl to shoot craps and learned from him an equally fascinating British pastime with the dice.

It happened aboard the American liner St. Louis, from New York to Liverpool. Eichwald, long on conviviality but short on formal English etiquette, spied His Grace seated at a green-covered table in the smoking room. Two friends were with him.

"I'd like to ask the Earl to have a drink," he confided to his traveling companions.

"Well, why don't you?" asked one of them.

Eichwald did.

"Hey, Earl," he called across the room, "have a drink."

The Earl would, when he recovered from the momentary shock, and moved over to the American's table have it.

Eichwald's companions, an Australian and an American from St. Louis, began nudging the dice for sevens, "evens" and "points" for tuppence. Eichwald, the Earl's co-star in the little smoking-room skit, seized the bones and faded the pair tuppence apiece. Then he talked to the dice.

"Oh-h-h! Ba-by dice! Turn over for 'pop-ah!'" he pleaded. "Mm-mm, Dice! Oh-seven."

His Grace leaned over the table, watching the bones intently, trying to "make" the game. It was beyond him and Eichwald explained that "if you make seven or eleven on the first roll, you win; two, three or twelve you lose the 'fade' but not the dice" and on down through the intricacies of the negro game.

Then the Earl took the bones and the quartet shot an imaginative game in this method, with 50,000 pounds at stake on each turn, Eichwald scarcely downing an impulse to slap him on the back and call him "Limmy."

No, indeed; an Earl isn't a bad sort at all. The Earl of Limerick is a little round man, with a partly exposed pate, a sorrel, close-cropped beard, mustache and an inborn aversion to the poetical metre bearing the name of his line. Limericks, he said, were not invented by him, through wherever he visits he is called upon to tax his ingenuity to devise jingles about people whose names simply are not rhyme-able.

"I have just been touring part of the States," he said. "I went to Newport and got as far west as Philadelphia. Next time I come over I am going to visit a gentleman in Dallas, banker who tells me Texas is a beautiful state. I am also going to visit the Grand Canyon and that valley I've heard so much about; the Yosemite."

ARMY OFFICER
IS EXONERATED

Report Finds Lieut. Col. Butler Was
"In Line of Duty" When Shot
Last Week by Spannall.

WAS WITH LATTER'S WIFE

(By United Press.)

San Antonio, Texas, July 27.—The widow of Lieutenant N. C. Butler, slain by Harry Spannall, hotel proprietor in Alpine, last week, will receive a pension. The official report of Colonel J. A. Gaston, commander in that district, cleared Butler's name and assigned unreasonable jealousy as Spannall's reason for shooting his wife and Butler, it was stated today.

According to the army code, the fact that Butler had a "moral right" to be with Mrs. Spannall shows he died "in the line of duty," which must be proved if a soldier's widow is entitled to a pension. According to Gaston's report, Spannall had an argument with Butler about Mrs. Spannall prior to the shooting, after which Butler avoided Mrs. Spannall as much as possible.

President Wilson's Administration

Now Indicate

HIS FOLLOWERS DEFEATED

Washington, D. C., July 27.—The Washington correspondent of the Chicago Tribune, in a dispatch to his paper, says:

A stinging defeat was administered to President Wilson by the voters of Texas on Saturday.

Such is the verdict of official Washington, now that the returns from the Lone Star State, practically in all, indicate a straight out victory for the anti-Wilson men.

Wilson, Wilson's Mexican policy, and Wilson's foreign policy were the three chief issues in the campaign. The supporters of Wilson and his policies were beaten wherever there was opposition to them, according to the reports.

Former Governor Colquitt, basing his campaign entirely on opposition to Wilson and Wilson's Mexican policy, is far in the lead for the senatorial nomination.

Congressman-at-large McLeMure, basing his campaign on opposition to Wilson's Mexican and foreign policies, also is leading the race for the two positions of congressman-at-large.

Five Wilson-Democratic congressmen went down in their effort to win renomination by hanging onto the coat tails of the president. The Democratic congressmen who failed to get renominations were Callaway, Stephens, Burgess, Smith and Davis.

Notice of Improvement Resolution.

Rushville, Ind., July 18, 1916.

To Whom It May Concern:
Notice is hereby given by the common council of the city of Rushville, Indiana, that it is desired and deemed necessary to make the following described public improvement in the city of Rushville, Indiana, as authorized by Improvement Resolution No. 56, adopted by said common council on the 4th day of July, 1916.

Cement sidewalks, cement curb and gutter, and grading lawns on the east side of North Main street from the south side of Lot No. 123, Stewart & Tompkins' addition, to the north side of lot No. 96 in Belmont.

All work done in the making of said described public improvements shall be in accordance with the terms and conditions of the said improvement resolutions and the detailed drawings, plans, profiles and specifications which are on file and may be seen in the office of the city clerk of said city of Rushville.

The common council of said city has fixed TUESDAY, THE 15th DAY OF AUGUST, 1916, as a date upon which remonstrances may be filed or heard, by persons interested in or affected by said described public improvement, and on said day, at 7:30 o'clock p. m., said common council will meet at the council chamber, in said city of Rushville, for the purpose of hearing and considering any remonstrances which may have been filed or which may be presented, and will hear all persons interested, or whose property is affected by said proposed improvements, and will decide whether the benefits that will accrue to the property, abutting and adjacent to the proposed improvements, and to said city, will be equal to or exceed the estimated cost of the proposed improvements, as estimated by the city civil engineer.

FIVE SETS OF TRIPLETS
BORN IN JUST ONE FAMILY.

(Pekin, Ill. News.)

When James Riley and his family of twelve children arrive in Pekin this month the Chamber of Commerce of this city will meet them and escort them to their new home. This may seem an unusual procedure, but it is not when the citizens of Pekin learn that the Riley family is the most famous in the United States.

Mr. Riley and his family have lived in Detroit. He came to Pekin several weeks ago and secured a good position at the Corn Products plant. He liked Pekin so well that he decided to move his family here and called on Phil Sipple, secretary of the Commercial club to ask his assistance in securing a house. Mr. Riley will probably lease Mrs. Haft's home in the east end of the city.

The singular feature about Mr. Riley's children is the fact that they were born in four sets of triplets. There is no other family like it in the world. The first set consists of one boy and two girls, Charley, Carrie and Corie. They are eleven years of age. Then came Miller, Grace and George, nine years old; followed by Myrtle, Minnie and Frank, five years old; and Freddie, James and Hazel, three years old. The family consists of six boys and six girls. The father is 29 years old and the mother is the same age. He is a half breed Indian and his wife is a French Canadian. Mrs. Riley's mother was a full blooded Choctaw Indian. He has lived most of his life in Canada and for the past four years has worked in Detroit.

While living in Detroit Henry Ford, the manufacturer of the Ford automobiles heard of Mr. Riley and called on him. He was so interested in the family, Mr. Ford presented Riley with a special made Ford auto that will haul the entire family.

Mr. Riley is greatly impressed with Pekin and says he knows his family will like to live here. He could not find a home but the secretary of the Association of Commerce has located a suitable home and the Rileys will soon be here.

Later: Mr. Riley was interviewed by a Journal representative late yesterday afternoon.

He stated that on July 5 of this month his wife gave birth to another set of triplets at Detroit. They now have fifteen children. Mr. Riley left last evening for Detroit and will bring his family here on July 20.

He said his wife was a twin child and he a triplet and that the famous doctors offer this as an explanation for his unusual and wonderful family.

Mr. Riley stated that his wife weighs 81 pounds. She is in perfect health and nurses her children. Her twin sister is with her constantly and takes care of the huso and takes care of the household.

He claims to have a grandfather in Texas aged 120 years and he will bring him to Pekin to live with them.

Mr. Riley is an electrician by profession and says he has no desire to go to Europe after the war.

ACCUSED A VICTIM

(By United Press.)

Olney, Ill., July 27.—Olney's "air murder" mystery was further complicated today with intimation from defense attorneys that Roy Hinterlitter, farmer boy accused of murdering seventeen-year-old Elizabeth Ratcliff, Indiana farmer's daughter, is a victim for defense of another.

A boy was born to the wife of Claude Fowler, northeast of the city.

TO START TURNING
OFF WATER FRIDAY

Superintendent Mahin Has List of
Delinquent Water Consumers
From City Treasurer.

NUMBER IS NOT VERY LARGE

The list of delinquent water consumers is now in the hands of Superintendent Mahin, and acting under orders of the city council he will start turning off the water tomorrow. In all there were about eighty people who did not pay their water bills in the specified time and under the ruling of the public service commission the city has no option but to turn the water off and then collect an additional dollar if the bill is paid and the water turned back on.

The consumers had plenty of warning, according to city officials, and there is no excuse as to why the rule should not be enforced. The list of delinquents was prepared by City Treasurer Stech. The number was smaller than at first believed would result.

ENCAMPMENT HAS
BEEN CALLED OFF

U. R. K. of P. Gathering Can't be
Held at Nashville Because of
Disturbance With Mexico

CAMP SITE NOT AVAILABLE

Members of Ivy company No. 35, Uniform Rank, Knights of Pythias, were disappointed today when they learned from Captain George Coons that the national encampment, which was to have been held at Nashville, Tenn., had been called off. Capt. Coons received a letter from W. H. Loomis, major general. At the memorial and inspection here in June, the Third regiment decided to go on a special train.

Various reasons are assigned for this action. The only available camp grounds near Nashville are being used by the Tennessee state troops. The government had agreed to furnish the Uniform rank with camp equipment, such as tents and other things, but the calling out of the troops on account of the Mexican trouble makes this impossible. Also, it is stated that many U. R. K. of P. companies have been affected by members being called to the national guard and compelled to enter the United States service.

SEE ATTEMPT TO TAKE MAN'S LIFE

Whiskey Left at Will Dunn's Home
Near Andersonville Found to
Contain Strychnine

PROSECUTOR INVESTIGATES

Oscar Raham, Brother-in-Law, Took
Drink of it and Has Convul-
sions—Life Saved

The prosecutor of Franklin county, it has just developed today, has been asked to investigate a mysterious circumstance relative to the mixture of strychnine with some whiskey that was left by some unknown person at the home of William Dunn, near Andersonville, and a very small portion of which was drunk by Dunn's brother-in-law, Oscar Raham, nearly causing his death.

Dr. Henry C. Metcalf of New Salem was called when Raham was suddenly stricken after drinking the whiskey. He called his father, Dr. Henry D. Metcalf, in consultation and found that it was a plain case of strychnine poisoning. The man was saved, but because of the mystery surrounding the introduction of the whiskey to the Dunn home, it was sent to the state food and drug commissioner.

W. D. McAbee, state chemist, examined the samples sent by Dr. Metcalf and found that it contained traces of strychnine.

The whole episode is clothed in mystery. William Dunn, who is a very old man, had been away from home the day previous to that on which Raham was stricken. He says that he brought home nothing to drink, but the next morning he discovered in his buggy two bottles of beer and a half pint of whiskey.

Raham was working at the home of Dunn that day and about four o'clock in the afternoon was very fatigued. Dunn says that he drank the beer when he found it, but that he did not touch the whiskey. Dunn told the physician that Raham looked so bad that he gave him a couple of drinks out of the bottle of whiskey. In twelve or fifteen minutes Raham was stretched out on the ground with what the doctors determined was strychnine convulsions.

Just what the Franklin county prosecutor has learned about the case is not known, but it was generally felt that an attempt was made on Dunn's life.

OLD BOND IS CONTINUED

Elmer Hite is Arraigned on Two
Grand Jury Indictments.

Elmer Hite, indicted by the Marion county grand jury on charges growing out of the confession of George Davis, owner of the Clarksburg garage, was arraigned yesterday, but entered no formal plea and was released under bond. The bond in these two cases was the same as when he was first released, the court simply continuing the bond. Hite was taken to Indianapolis yesterday by Sheriff Cavitt. The indictments charge him with burglary and with receiving stolen goods. It is not known here whether Harry Flodder, the other Rushville boy involved, was indicted or not. His attorney had received no word.

Miss Mary Driscoll is critically ill at her home in Washington street.

Friends may call any time up until the funeral hour.

HEALTH BOARD TO MAKE INSPECTION

Dr. E. I. Wooden Announces Resi-
dents Should Clean up Premises
to Avoid Embarrassment.

WOULD PREVENT EPIDEMICS

The city board of health today announced through the secretary, Dr. E. I. Wooden, that to save themselves any embarrassment, the people of Rushville had better clean up their premises because the board intends to make an inspection of the city soon and any unsanitary conditions found will have to be remedied. The board said that it would compel residents to clean up any unhealthy places that were found.

Dr. Wooden said that this step would be made to take every precaution against epidemics of typhoid fever or infantile paralysis. Since an epidemic of the latter disease is sweeping Greater New York and a few cases have been found in other localities, the health board is especially desirous of guarding against it.

Dr. Wooden said that residents should get rid of their manure bins and clean up all other refuse about their places. He warned against throwing garbage or any decayed animal matter in alleys.

ORDERS TO LEAVE HELD UP

Baltimore, July 27.—Either alarming information or good news of the submarine Bremen kept the Deutschland in port today. Which it was the managers of the submarine refused to say.

Orders for the vessel to go out over night were suddenly countermanded.

Inasmuch as news of the Bremen was the determining factor in the matter of the Deutschland sailing, it was accepted as true that at least the Deutschland sister ship had been heard from.

Perhaps, it was said, the Bremen had met with a mishap and that the Deutschland would not make an attempt to run the allied patrol. On the other hand it was suggested cheerful information determined the managers to wait a little while on the Bremen's coming.

DROPS DEAD AT HOME NEAR HERE

Henry Clevenger, Age 53, Expires
Suddenly of Heart Disease
While Hitching up Horse

TWO ATTACKS PREVIOUSLY

One Suffered Last Night But he
Arose This Morning in his
Usual State of Health.

Henry Clevenger, 53 years old, dropped dead this morning at about six-thirty o'clock in the barn yard at his home, southwest of the city. Death was caused from heart disease. He suffered two attacks from his heart previous to the fatal attack.

About two weeks ago he was overcome while at the fair grounds and was brought to a physician's office here where he was revived. Last night after eating supper he had an attack but it was not serious and this morning he arose, appearing to be in his usual health. He went to the barn preparatory to starting the day's work, and after harnessing a horse and coming out in the barn lot, he dropped to his knees gasping for breath.

One of his sons came hastily to this city after a physician but Mr. Clevenger lived only a few seconds and was dead before medical attention reached him. A postmortem was held, showing the cause of death.

Mr. Clevenger was a son of the late Harvey Clevenger and was widely known over the county. In the recent primary he was a candidate for the nomination of sheriff on the Republican ticket. He was a resident of this city and county all his life. He is survived by his widow and several children.

The funeral services will be conducted Saturday morning at ten o'clock at the late residence and burial will take place in East Hill cemetery.

LARGER CROWD IS OUT SECOND NIGHT

Various Amusement Stands and Re-
freshment Places as Well as
Show Well Patronized

ENTIRELY NEW SHOW TONIGHT

The second night of the Catholic carnival was better attended than the opening night and the various amusement places and refreshment stands today reported a fine business. The country store sold out again and the business of restocking today occupied the attention of the managers of the store. The ferris wheel is proving to be one of the best attractions that the carnival ever had.

The plan to give a different home talent show each evening, one of special merit, is meeting with great favor and both nights thus far have been well patronized.

Tonight "That Rascal Pat" will be presented by a caste composed of Miss Marie Perkins, Miss Margaret Kelly, Michael McCoy, Tom Geraghty and Will Fitzgerald. Last night, "Who is a Coward?" was well patronized, both performances being to crowded houses. Tom Cooney, Mary Moorman and Ed O'Neil completed the caste last night.

LOCAL BOYS MAY BE SENT HOME

There is Chance That Unit Com-
posed of College Students Will
be Withdrawn Sept. 1

BATTERY B IN THIS CLASS

However, None From Here is College
Students and May Have to
Show Their Intentions

Rushville boys with the Indiana National Guard on the border may get to come home within a month, according to dispatches today from Washington. It is authentically stated that college men and organizations composed of college students will be the first units to be withdrawn from the border service.

This means that Battery B, known as the Purdue university battery, will be among those to be mustered out of the United States service about September 1, if conditions at the time are not such that will make necessary the retention of the whole guard.

All boys from here who enlisted in the national guard became members of Battery B. They are Walter Gartin, Allan Blackledge, Dr. Hale Pearsey, Frank Owens and Fred Beale, Jr.

At the same time since none of the Rushville boys are students in Purdue, it is possible that they might not be mustered out because the statement was the war department says that all guardsmen who can show a bona fide intention of enrolling in some institution of learning or returning to their studies, will be mustered out according to this regulation, and a special effort will be made to have them enlist as members of the officers corps.

"In this way," the announcement reads "advantage will be taken of the fine material which the college students offer; they will be reserved material which the college students offer; they will be reserved for great emergencies without interference with their educational development, and the national guard will be relieved of embarrassment of containing units, all of which are not to close their classrooms."

At present there are a great many students among the guardsmen. Several organizations are distinctly student organizations, representing some school or college. Hardly a large university in America is not represented by at least a company. Unless these men are released in time to resume their fall studies many professors will have to close their classrooms.

This ruling of the war department will affect a large number of students from Indiana colleges and universities, who are with the Indiana troops in Texas. It will also permit practically the entire Bloomington company to return home, and will also permit the students who make up the Lafayette battery to get back in time for the opening of Purdue university.

Officials of the war department were told that this distinction of students would raise the cry of preference and that workingmen would say that the students were the beneficiaries of discrimination.

"These young men," said the official, "are in the formative period of their lives. Any interference with their studies will warp their careers. The border service is merely a temporary loss to other members of the guard."

Provision is made in the department's plan for the student's enrollment as members of the officers reserve corps.

NEW HEAT WAVE RECORD

Will be Longest in History if Mer-
cury Doesn't Tumble Quickly

(By United Press.)
Chicago, July 27.—While reports of heat suffering poured in from all parts of the middle west and west today, the mercury continued its upward climb. Another scorcher was tomorrow's prediction by the weather bureau.

Unless the mercury tumbles quickly, this will be the hottest July in the history of the middle west. Government records show the present heat wave is the longest since 1874, as far back as the records go.

HIGH MARK IS SET FOR SUMMER TODAY

97 in Shade is Temperature Record-
ed Here Shortly After one
O'Clock This Afternoon

BREEZE HELPS OUT SOME

The high mark for the summer was set today when temperatures of 97 degrees were registered by downtown thermometers. Those which were in the sun or even covered by awnings recorded temperatures of 102 and 103. A slight breeze helped some to relieve conditions.

Yesterday was the hottest day of the year up to that time, according to the government thermometer, at the home of Elwood Kirkwood, near Maury. The temperature reached 96 degrees at about one o'clock yesterday afternoon. The mercury had a good start upward in the tube this morning, and it was at first believed it would not surpass the 96 mark of yesterday.

Several thermometers in Rushville showed a similar temperature and many others showed even a greater heat yesterday. At least one thermometer in the business district showed 96 degrees yesterday. The highest previous temperature of the summer was on Tuesday when 94 degrees was registered.

JURY RENDERS A VERDICT FOR BEVER

Finds That he Did Not Violate Muf-
fler Cut-Out Ordinance, as
Charged by City

COUNCIL TO DISCUSS LAW

The jury in the case of the City of Rushville against Roy Bever, to collect a penalty for operating an automobile with the muffler open, returned a verdict for Bever after being out for over an hour. The verdict was returned shortly after five o'clock Wednesday afternoon.

The jury took several ballots and at first stood four to two in favor of Bever. The case required most of the day to try. A large part of the time was taken up with argument and when the case reached a point where the city was ready to introduce testimony the defense would not admit the ordinance in record and it was necessary to call the city clerk to identify the ordinance to the jury.

It is likely that the muffler cut-out ordinance will be discussed at the next council meeting and either be repealed or amended.

AGED MAN TRIES TO KILL HIMSELF

Philander M. Witters of Near Milroy
Slashes Throat With Razor
and Then a Saw

ATTEMPTS UNSUCCESSFUL

Recently Declared Insane Because
of Worry Over Financial Mat-
ters—To be Taken Away

Philander M. Witters, recently declared insane and under guardianship in the circuit court, this morning made two unsuccessful attempts to commit suicide by cutting his throat, at his home a short distance west of Milroy.

Mr. Witters, who is about sixty years of age, has a weakened mind due to worry over financial matters. It is said that he once owned a farm near Milroy and that he had lost it all.

Mr. Witters first tried to slash his throat with a razor this morning, but it was taken from him before he did himself very great harm.

In the meantime Sheriff Cavitt had been called from this city because Mr. Witters had become violent. It is said that after the sheriff arrived the aged man snatched up a hand saw and tried to finish himself.

He did not injure himself greatly with the saw before it was taken away from him. Because of his signs of insanity displayed today, Mr. Witters will be taken to the Southeastern insane hospital at Madison in the morning by the sheriff.

Mr. Witters was lately declared insane because it was not believed that he was capable of attending to his affairs. After the inquest determined his mind was not right, a guardian was appointed.

Mr. Witters lived at the home of his daughter, Mrs. Ruth Huey. It is said that he once before attempted to take his life but did not injure himself badly and that he has on several occasions since that time openly threatened to take his life.

MAYOR BUNCH MAY KNOW FATE TONIGHT

Jury Will Get Muncie Graft Case at
5:30 p. m. Today; It Was Ex-
pected Earlier in Day

CLOSING ARGUMENTS MADE

(By United Press.)
Muncie, Ind., July 27.—Mayor Rollin H. Bunch may know his fate tonight. The jury which heard evidence of his alleged conspiracy to solicit and accept bribes, will retire at 5:30 p. m.

At that time it will have heard seven hours of argument. Judge W. A. Thompson, special prosecutor, arraigned Mayor Bunch and appealed to the jury to save Muncie from "its reign of lawlessness."

Phil O'Neil of Anderson, for the defense, hit back at the state, alleging that the prosecution is founded on "foul and disreputable motives" and "on perjury from beginning to end."

Mrs. Henry O'Reilly of near Gings who has been ill for the past few days is somewhat improved.

PAY A LITTLE MORE AND GET A LOT MORE

Don't put a mortgage on your judgment in buying a car.

There's many a man in this county who paid too low a price for his car—and lived to regret the day.

I am not saying anything against low-priced cars. There are a number of good ones. They do the job well.

I am trying to get people to get a bird's-eye view of the motor car situation instead of a worm's-eye view.

Sometimes by paying a hundred or two hundred more you get \$500 extra value.

I refer now to the 1917 3400 r.p.m. Chalmers. Here's a car that has been run more than 1,000,000 miles in the hands of owners, yet attained a service record of 99.21% perfect.

That is the mark of a great car. And though it costs, possibly, a little more than you ever paid for a car before—remember that extra little sum gets you from the zone of a fair car to the zone of a great car.

It is not only money in your pocket in the long run, but pride everywhere you drive. There's a pleasant and interesting satisfaction in driving a regular car.

Price \$1090 Detroit—really a \$1400 value.

SENATE REVERSES WEDNESDAY'S VOTE

Strikes Out of Army Bill Provision
to Permit Guardsmen on
Border to Vote.

A POINT OF ORDER IS RAISED

(By United Press.)
Washington, July 27.—Reversing yesterday's action the senate today struck out of the army bill a provision to permit militiamen on the Mexican border to vote for president, vice-president, senators and congressman.
Senator Jones of Washington first attempted to amend yesterday's provision so that the failure of guardsmen to register before leaving for the border would necessarily debar them from voting.
Senator Williams raised a point of order against the whole amendment on the ground it was general legislation and not properly a part of the appropriation bill. Vice-president Marshall and the senate sustained the point.

WOMAN BLIND MANY YEARS DIES TODAY

Mrs. Jasper Smith, Age 72 Years,

of Bright's Disease.

FUNERAL TO BE TOMORROW

Mrs. Anna Smith, who has been blind for a number of years, died this morning at her home in Williamstown, a short distance south of Milroy, after a prolonged illness with Bright's disease. She had been a patient sufferer for a great many years, ever since she lost her sight. Mrs. Smith was the wife of Jasper Smith and was about seventy-two years of age.

Mrs. Smith is survived by her husband and one daughter, Mrs. Clarence Brooks. The funeral will be held at the late residence some time tomorrow, the exact time not having been determined this afternoon. The funeral will be preached by the Rev. Mr. Philippi, pastor of the Milroy Christian church and burial will take place in the Milroy cemetery.

BANGS FAMILY CELEBRATE LANDING OF ED-IN 1624.

(By United Press.)
Chicago, July 27.—A hundred odd descendants of Edward Bang, of England who planked his foot down on Plymouth Rock in 1624, took a good slant at Massachusetts's shore and picked the country as a pretty good place to live, barring the Indians, gathered here today to celebrate the 292nd anniversary of his arrival.

The 5th annual reunion of Bangs descendants brought to Chicago prominent men and women from all parts of the country. Among the descendants are John Kendrick Bangs, humorist, Ex-Governor Eugene N. Foss of Massachusetts and his brother, Congressman George E. Foss of Illinois.

Officers of the society are: George H. Bangs, president, Augusta, Maine; Dr. Charles L. Bangs, Boston, Mass., secretary; Carroll L. Bangs, Needham, Mass., treasurer; Mrs. Adelaide Bangs Walker, Reading, Mass., historian.

Most of the Bangs descendants have prize pedigrees, dating back to Colonial and Revolutionary days, and most of them are members of the various colonial and revolutionary war societies.

Tomorrow King Baggot will play in "The Haunted Bell" a two act Imp drama and Eddie Lyons will be seen in a Nestor comedy entitled "Eddie's Night Out."

The Princess offers an all comedy program tonight. The first is a three reel feature entitled "Miss Adventure." Mary Anderson, Webster Campbell and Anna Schaffer are featured. It is a story of three sisters and a young man who makes love to all of them. The mix-up is very funny. The other is a Rose Melville comedy "An Innocent Vampire." Tomorrow, matinee and night the feature picture "Unto Those Who Sin" will be shown. Fritzi Brunette is featured. The story is a tale that is sordid and yet fascinating. It is a sermon that is too often unneeded. The acting is said to be especially fine.

Carranza and Villa.

A great many people who love peace seem to think that the situation in Mexico is quieting down and that it will be but a few weeks before the troops will be withdrawn from the border.

It is one thing to think, but quite another to realize upon these expectations.

Let us look at the facts as they exist.

All Mexicans hate the United States, Carranza and Villa included.

Carranza is "being good" just now because he wants to borrow money in this country and knows he can not do so if he is at war with us. Once he gets the money, he is then free to turn his guns upon us again.

Villa hates us with an enmity that is undying in its intensity. He is without scruples and has sworn to kill every American who crosses his path.

He is collecting another large army and is defeating the Carranza forces wherever they are encountered, while many of the latter are flocking to the Villa standard.

It is almost a certainty that in time Carranza will lose his power, which now is tottering, leaving Villa in supreme control.

Then nothing will prevent the march against the United States of Villa and his vast bandit horde, spreading terror and devastation along the border in case our troops are removed.

Looking at it purely in the light of facts as they exist, can you see even one ray of sunshine in the clouds that are gathering to the south of us?

"The Bulletin," which is the political dope-sheet issued by the Democratic National Committee for the guidance of Democratic editors, carries this line: "Editors are invited to submit suggestions for the improvement of The Bulletin." We have one suggestion to make. It is that the "Bulletin" discard the policy of the administration to try to fool

To James Whitcomb Riley

Three shadows walked along the shore
Of Death's relentless sea,
And talked in weirdly wistful words
Of days of memory.

One said with voice of vaunting pride:
"Now wherefore should I sigh?
My word has made and broken thrones;
A diplomat was I."

Another spoke complacently:
"Death has for me no sting:
In life the world lay at my feet;
I was a money king."

The third low ventured timidly:
"My lot was not so high:
No power and little wealth was mine;
A humble bard was I."

But even as they murmured there
Of destinies of yore,
A universal shout arose
From Earth's receding shore.
Two spoke with clear expectancy:
"We'll hear who's blest with fame."
The poet smiled a strange, sad smile—
The echo lisped his name.

—Earl Marlatt.

somebody. For instance, in the "Bulletin" of May 15, there is an article headed "The Republican Platform," which is a pure fake. It was written by some Democratic smart-Aleck and printed in a style to make people believe that it is the platform of the Republican party for 1916. It will be a dull man, indeed, who is deceived by such practices.

When Vance McCormick gets his movie films of the Wilson administration in operation we certainly hope he will have a spirited film showing the sinking of the Lusitania, together with a set of "close ups" depicting Wilson in the White House, his face marked by grim determination and his fingers feverishly playing on the keyboard of the rickety typewriter which he for so long a time deemed an adequate defense for this country against any danger.

Soldiers who have families dependent upon them are being discharged from the regiments on the border. In time, no doubt, unless something "breaks loose," the dependent families will multiply many fold. Plowing corn on a hot day is no sinecure, but it is a paradise compared to patrolling the border with no immediate scrap in sight.

No matter how troubled the waters may be, if you look you can always find a stone upon which to step or a harbor in which safety may be found. Life holds more joys than sorrows for those who cultivate an open mind.

A little sunshine in a shadowed life is as precious as gold to the miser. Give of your abundance to those who are starving for joy, and the world will be brighter to you for your act.

If you would know something of the inner workings of your neighbor's home, just note the attitude of his dog and cat. Their actions tell the story.

The lad who sticks to the farm in youth will find the dollars clinging to him in old age.

CENTENNIAL NEWS LETTER.

(Issued by the Indiana Historical Commission.)

The Centennial observance is furnishing a good yard stick measuring the communities of Indiana. In the first place, there are the two groups, much the larger of which, to the honor of our citizenship, comprises those which are observing the anniversary in some formal manner. The do-nothing few of the second group are self-eliminated from consideration.

In the second place, the do-something group may be subdivided between those which hold real Centennial celebrations, and those which

tack the Centennial idea on to an industrial fair and street carnival. Here is an acid test of a community's spirit of patriotism. It is a question of heads or tails. It is a question of whether loyalty to state and deference to those who have made it, shall be strong enough and noble enough in a community to demand that the Centennial ideal shall dominate all else, or whether it shall merely furnish the tail of the kite of the big round dollar. It is perfectly proper and desirable that our industrial interests receive recognition in the anniversary observance. But it is an entirely different thing to turn the latter over to some commercial organization to be made a side issue to an industrial exposition, carrying "high class" hippodrome attractions. Those counties and cities that refuse to compromise their celebrations by affixing the dollar mark, exalt themselves and do honor to their state. Heads win in 1916.

Centennial Head Lights.

Chairman Walter W. Bonner, the Greensburg banker, modestly admits that the Decatur County Centennial celebration, October 18-21, the last to be held, will eclipse all forerunners. Governor Ralston will deliver the big address, and has agreed to participate in the pageant which is being written.

One of the very first steps taken by the Indianapolis Celebration Executive Committee was to go squarely on record by unanimous vote against everything in the way of street carnival and hippodrome amusements for the state celebration in October.

Don't take at par the bear stories of Centennial celebration deficits that fit so cheerfully through the press. For instance, in place of a loss of some \$1500 in a recent county celebration, inquiry on the part of the Commission revealed a surplus of one-third the reputed deficit, which will be used to mark suitably the historic places in the county.

An elaborate and excellent historical sketch of Parke county has been issued, which is edited and largely written by I. R. Strouse, editor of the Rockville Tribune and historian of the Parke County Centennial Committee. It is so far removed from the ordinary, commercialized county history as to awaken enthusiasm and delight. For example, there is but one exception to the rule that the picture of no living person shall appear therein, the exception being made in the case of Mrs. Elizabeth McCoy, who is in her one hundred and sixth year. The book, covering in an accurate and painstaking, as well as in an interesting way, the salient historical facts of the county, is a worthy and commendable "Parke County Memorial."

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & CO., Toledo, O. SNEEZERS ARE GETTING READY

National Hay Fever Association
Meeting Will be Held in White
Mountains This Year.

THOUSANDS WILL ATTEND

Report of President Shows Each
Sneezer Sneezes Some Sev-
enty-Five Times a Day.

(By United Press.)

Bethlehem, N. H., July 27.—No body nose how many members of the National Hay Fever association will attend the annual convention up here in the White Mountains August 31. But there are 200,000 sneezers, sneezers and sneezers enrolled and a good many thousands of them will be here, from all over the country.

According to the report of President John R. Pinover, these sneeze-ridden sneezers sneeze some seventy-three sneezes a day, for an average of forty-one sneezy days a year. This gives us 6 billion, 3 million, 200 thousand sneezes to look forward to this year. Most of these young explosions will as usual wait until they catch their victims in the middle of the preacher's prayer or some place like that before demanding expression.

In volume of noise these sneezes will be equal to seventeen European wars and a municipal trolley system. They will necessitate the use of six handkerchiefs per day per sneezer, a total of 1,200,000 fabrics a day for the 200,000, or 50,400,000 hankies to register the hay fever vote of ayes and noes for the season.

Present and sneezing at the convention will be Henry Altman of East 87th street, New York, the noblest sneezer of them all. Altman has tried 100 remedies, including psycho-analysis, suggestive therapy, Bahamism, Yogaism, astrology, osteopathy, bleeding, hypnotism, auto-suggestion and automobilizing, singing, science and scores of others.

A number of rose feverites will be among the hays, the hays last year deciding by a straw vote to welcome them.

The case of the Texas member who sued his insurance company for double indemnity because he suffered complete disability for two weeks as the result of being hit by a sneeze germ while riding on a train, will be discussed.

**DENOUNCES FOLKS
WHO ROB THEIR
CHILDREN OF SLEEP.**

BY SAMUEL G. DIXON, M. D.
(Pennsylvania Commissioner of Health.)

The present habit of turning night into day in our highly illuminated towns with all sorts of exciting entertainment keeps the nerves keyed high and upsets the equilibrium.

Children especially are apt to suffer from late hours. For the first two years of life, eating and sleeping are the two great essentials. Babies should sleep from fifteen to twenty hours out of the twenty-four and older children from ten to fourteen hours. It is not an unusual thing to see babies in arms or very young children being carried about until their parents' bed time. This is injurious to the children and cannot be made up by additional rest the next day.

Permitting children to remain up late is a strain on their nervous system which, while it may not be

immediately apparent, is bound to exert a detrimental influence in the long run. Oftentimes the ill effects are perfectly apparent to the intelligent observer.

Irritability and any of the train of evils which result from an over-taxed nervous system may result from continually robbing the child of sleep. A regular bed time should be set for children according to their age, ranging from six o'clock for babies to eight for children of eight or nine and this should be regularly adhered to. This is a matter of the utmost importance in establishing a study constitution in childhood.

With adults, irregularity and short hours of sleep are often a factor which predisposes to ill-pacity for work with less than the individual who has an unusual health. Occasionally one will find an ordinary amount of rest, but for the ordinary man or woman this would be disastrously.

HOOSIER BRIEFS

Kokomo—A petition has been drawn up and soon will be circulated asking the county commissioners of Howard county to take steps toward the erection of a new court house. The present building is declared to be in such a condition as to render the records of the county unsafe.

Frankfort—The Frankfort zoo will receive a contribution within a few days direct from the land of Villa. Members of the Frankfort Ambulance company of the Indiana national guard captured a peccary or wild hog, soon after their arrival at Mercedes. They are sending it back home as a present to the city.

Brazil—In some railroad station in southwestern Indiana in all probability, is an unclaimed Angora goat. The goat was sent by express from here. While its crate was waiting to be loaded on the train the Angora was seen to eat the tag which contained the shipping directions.

Principal Address Afternoon
of Newcastle Meeting.

A. E. LEITER SPEAKS AT NIGHT

Arrangements are being completed for the attendance of local business men at the district meeting of the Hoosier Business Men's association at Newcastle next Wednesday afternoon and evening. Only members of the association will be admitted to the chicken fry at the Newcastle Country club in the evening at six o'clock, but there is every assurance that practically every member of the association in Rush county will attend. Machines are being rounded up now and arrangements made for all of them.

The afternoon session will open at 2:30 o'clock at the Newcastle city library. The address of welcome will be made by Leb Watkins, mayor of Newcastle. The address of the afternoon will be made by Judge Will M. Sparks of this city, to be followed by a general discussion of the sub-

ject of legislation. Other subjects of importance to the business men will be discussed.

A. E. Leiter of Connersville will speak at the banquet on the subject of "Credits and Collections," and a discussion of the Stephens-Ashurst bill will follow.

DON'T LIKE HIS FATHER.

(By United Press.)

Camp Willis, Columbus, O., July 27.—The son of a Mexican bandit chief is in the ranks of the Ohio national guardsmen here today. He is Oscar Jones, private, Co. I, Second regiment, of Kenton.

Oscar's father was chief of one of the lawless bands that ravaged northern Mexico and the border.

"His escapades brought ruin to us and broke my mother's heart—that's why I'm in the ranks, hating my father's people," said Jones.

"Jones is a willing worker. He'll make a good soldier," said Capt. Edward Collins.

"But," you say, "I brush my teeth regularly, yet they decay." Yes, you brush them, but do you REALLY CLEAN them? Tonight, after brushing your teeth, examine them closely. You will likely find an accumulation of tartar on the enamel and bits of food deposit hiding in the crevices. Decay, as well as the dangerous gum disease called Pyorrhea, usually develops only in the mouth where germ-laden tartar is present. SENRECO, the formula of a dental specialist, keeps the teeth REALLY CLEAN. It embodies specially prepared soluble granules unusually effective in cleaning away food deposits. Moreover, it is particularly destructive to the germ of Pyorrhea. Go to your dealer today and get a tube of Senreco—keep your teeth REALLY CLEAN and protect yourself against Pyorrhea and decay. MANSION SAID TO BE UNLUCKY

But of Course This Does Not Bother President Wilson Who Starts on His Vacation.

IS KNOWN AS "SHADOW LAWN"

Originally Built by John A. McCall and Later Occupied by Joseph White of Texas.

(By United Press.)
Long Beach, N. J., July 27.—President Wilson will arrive here soon to occupy the summer capital, "Shadow Lawn," and receive formal notification of his nomination. His sojourn in this heretofore unlucky mansion should be lucky if his lucky number is still working for this is the thirteenth year since the magnificent palace built by the late John A. McCall of the New York Life Insurance Company, in 1903, was opened.

Only misfortune followed the three persons who have previously lived here.

McCall, who spared no expense spent a million dollars on "Shadow and who is credited with having "Lawn" and its sixty-five acres of ground, beautified with over fifty thousand dollars worth of shrubbery and trees, and containing an artificial lake and a fifty thousand dollar stable and garage, spent only one season in the big white building on the hill before troubles came thick upon him.

Joseph White, the Texas postage-stamp millionaire, who founded his fortune on a bid for bonds in the second Cleveland administration, made it his home for several years before his financial collapse.

J. B. Greenhut, the New York merchant prince, who next purchased it, last year became a bankrupt. But the superstitious say the rule of three having been followed to the end, the hoodoo now is broken. Besides, "13" is President Wilson's lucky number, he says.

The hopes of Long Beach and its wealthy summer colony have long centered in the place being the Summer White House. It has been regarded as almost too pretentious and dignified for a mere private residence.

Shadow Lawn today is a Mecca for motorists, and is visited by hundreds of sight-seers daily. From the upper stories may be seen the summer homes of Presidents Grant and Garfield on the ocean, less than a mile away. An idea of the size of the building may be gained from the fact that twenty-five telephones have been installed for the convenience of the President's household.

Last fall former Senator James Smith, Jr., made the suggestion that it was ideally located for the President's headquarters in a national campaign.

Credit for bringing the summer White House to Long Branch is particularly due to these New Jersey-ites; B. B. Bobbitt, State Editor and Editor of the Long Branch Record; Dr. George H. Baker, Richard H. Deeves, Myron T. Oppenheim, Dr. Joseph T. Welch, Senator John W. Slocum, Editor James Kearny, of the Trenton Times, Representatives Thomas J. Scully, Appeals Court Judge Henry S. Terbane, Senator Henry E. Ackerson, Jr., Public Utility Commissioner, J. Lyle Kinmonth, Editor of the Asbury Park Press, and Charles F. McDonald.

PICNIC AT FLATROCK CAVE

The six couples belonging to the "500" Club are planning a picnic for tomorrow when they will motor to Flatrock Cave south of Shelbyville. It is said to be one of the most delightful picnicking spots in this vicinity and a delightful time is anticipated.

THEATRE PARTY

Guests invited in for the theatre party to be given this evening by Miss Freda Schatz in honor of Miss Grace Wheaton of Cincinnati and Miss Mable Pawling of Terre Haute are the Misses Marian Scholl, Ramona Ewbank, Myrtle Schmalzel, Jean McClanahan, Freda Hiner, Gladys Wallace, Marian Sparks, Leah Flint, and Beatrice Reeves.

CROSS COUNTRY CLUB

Miss Dora Winkler entertained the members of the Cross Country Club this afternoon at the home of Mrs. Fanny Smith of North Harrison street. Summer flowers were the only decoration used in decorating the rooms. At the conclusion of the sociable afternoon over their needlework, the members were invited into the dining room, where a dainty basket containing summer flowers, graced the center of the table. A delicious luncheon was served. There were about a dozen guests.

WITH MRS. MOOR

Lovely old fashioned flowers, zenias, golden glow, nasturtiums, and marigold, were placed in wall pockets and bouquets through the rooms in the home of Mrs. Francis Moor this afternoon when she entertained the members of the Auction Bridge Club. The usual game of Bridge furnished entertainment for the eight guests. A dainty luncheon was served by the hostess. Mrs. Clyde Early of Nevada was among the players. The next meeting will be with Miss Helen Sudder at her home in West Second street.

COMMUNITY CLUB

At the Fairview school house last evening, the Community club met and enjoyed an excellent program. Although the attendance was smaller than usual, the meeting was a very profitable one. Numbers on the program were: Reading—"The Mayor's Husband"—Miss Mary Hinchman. Paper—"Typhoid Fever"—Dr. Herman Smelser. Talk—E. F. Jeffrey. During the social period which followed dainty refreshments of punch

and wafers were served and a general good time was enjoyed by the members. The next meeting will be the third Wednesday in August.

WITH MISS MULNO

A pretty little dinner party is the one being given this evening by Miss Dorothy Mulno at her home in North Jackson street. A pretty bouquet of nasturtiums graces the center of the table at which the course dinner is being served. Guests are the Misses Lillian Bell and Kathryn Hutchinson of Huntington, W. Va. Lois Reeves, and Dorothy Sparks. This evening they will be joined by a group of boys and girls for an informal party at the home of Miss Mulno. There are to be about twenty-two guests this evening.

INITIATION

At the home of Miss Ruth Innis of North Harrison street, the Misses Marion Tittsworth, Gladys Tittsworth and Beatrice Reeves were initiated into Psi Iota Xi last evening. Miss Dorothy Frazee and Miss Phyllis Dean were also pledges of the sorority but are out of the city.

After the initiation, a general social time was participated in by the twenty-five members present. Dainty refreshments of ice cream, egg kisses, and peaches were served. Among the guests was Miss Grace Wheaton of Cincinnati.

A sorority picnic will be given near the new swimming beach tomorrow afternoon. Each member is asked to bring anything for the supper that she desires and the party will gather at four o'clock.

FOR HOUSE GUESTS

Mrs. Carl F. Beher entertained the Emanon club this afternoon, honoring her house guests, Mrs. Fred Thomas and Mrs. Ed Batterton of Greensburg. Invited guests were Mrs. Howard Mullin of Huntington, who is visiting relatives here, and Miss Helen Osterberg of Minneapolis, Minn., house guest of Miss Georgia Amos. Nasturtiums and golden glow helped make the home attractive. A lunch was served to the guests.

Mrs. Beher's guests will also be entertained with a picnic tomorrow afternoon when Dr. and Mrs. Beher, Mr. and Mrs. Derby Green, Mr. and Mrs. Albert Capp and Mr. and Mrs. Vincent Young go to the woods.

Yesterday afternoon Mrs. Thomas and Mrs. Batterton motored to Indianapolis with Dr. and Mrs. Beher and son William. Other guests on the motor trip were Mrs. Vincent Young, Mrs. Charles Frazee and Mrs. Derby Green.

FIGHT MAN-EATING SHARKS

25 Bathers Put to Rout School Near New Haven, Conn.

(By United Press.)
New Haven, Conn., July 27.—A battle between 25 bathers and a school of man-eating sharks occurred close in shore here today. The bathers, chased to the beaches by the sharks, dashed to nearby cottages, armed themselves with axes and spears drove the man-eaters back to deep water. Six sharks were counted close to shore and agitated water beyond where the battle occurred indicated there were more in deeper water.

WOULD TRY TO PREVENT CLINIC

Court Fight is Promised if Mrs. Sanger Opens Birth Control Campaign in Indianapolis

DIFFER REGARDING THE LAW

Dr. Keller Opposes Her Idea and Believes Majority of Indiana Women Feel the Same.

(U. P. Staff Correspondent.) Indianapolis, July 27.—If Mrs. Margaret Sanger, the New York advocate of birth control, follows out her announced intention of opening a birth control clinic in Indianapolis for the benefit of poor women she may face a hearing in court. Legal lights here are puzzling over the "obscene literature" status in the Indiana laws to see whether it applies.

Prosecutor Rucker of Marion county told the United Press today that if Mrs. Sanger opened such a clinic here it certainly would be investigated. He said if the Indiana laws apply, the application will be made.

Mrs. Sanger, it is understood, will not come to Indianapolis unless assured of some co-operation on the part of local women. Several women prominent in affairs were interviewed by the United Press today concerning the probable attitude of local women. Many of them thought Mrs. Sanger would not get far with her clinic.

Among those who opposed Mrs. Sanger's idea of birth control was Dr. Amelia R. Keller, president of the Women's Franchise League in Indiana. Dr. Keller said she opposed Mrs. Sanger's idea and believed the vast majority of Indiana women felt the same way.

Another woman mentioned the big crowd Mrs. Sanger drew when she spoke here during the National Conference of Charities and Corrections. She attracted so much attention that the street cars were full of the talk," said his woman. "I remember hearing two women discussing birth control. One woman said: 'I had intended going to hear Mrs. Sanger but, do you know, my husband put his foot down hard, saying I shouldn't go—that he did not believe in such rot. But I told him I certainly believed in birth control.'"

Dr. Marie Haslep, well known as an advocate of birth control, came to the front for Mrs. Sanger today. She declared that although the majority of local women might not understand back of the birth control idea, that was no sign they would not do so ultimately.

"The importance of birth control, one of the vital social problems of the day, cannot be overated," said Dr. Haslep. "In my opinion immense benefits would accrue from a knowledge of contraceptives."

"The solving of many other problems would be made possible, or easier. Among these are eugenics and peace. Social movements as a rule begin at the top and permeate downward. This has been the case with the decline of the birth rate. It is already well marked in all classes except the very class we wish to sterilize. Many are using means injurious or perverse. Why not let these learn healthful ways and teach others desiring to know? It may be difficult but not an impossible task to find motives that will act upon the weak-minded or reckless—the only class this movement has not touched."

"The United States, I understand, is the only civilized country that has laws against the dissemination of information about prevention of conception."

"The work of introducing amendments to the federal and state laws is under way. This work may be hastened by showing our legislators the difference between preventing life (birth control) and destroying life (abortion,) and that it is a difference of kind, not degree. Our legislators, apparently—judging by

the law—consider abortion of much milder crime than imparting information about prevention of conception."

One woman up in franchise circles expressed the fear that information concerning birth control might reach minds that would abuse the knowledge.

AMERICAN FOOT FEELS PINCH OF WAR

Pocketbook of Consumer is Also Hit By Increasing Prices of Shoes Due to War.

ADVANCE IN ALL RAW HIDES

(By United Press.) Chicago, July 27.—Evidence of how the European war is pinching tender American toes and pocketbooks was shown here today at the closing session of the Illinois Shoe Retailers' association.

O. L. Triebel, Jr., of Springfield, secretary, declared prices for shoes have jumped 20 to 30 per cent during the last year and it is up to the consumer to pay the price.

Demand for leather for shoes for the European armies caused the advance.

Triebel said tan calfskin for shoes retailing at \$5.00 sold at 30 cents a foot year ago and now brings 47 cents; men's dull calf leather, formerly 30 cents, now sells for 44 cents; white calf for women's shoes, formerly sold for 28 cents, now sells at 55, and so on down the line. Linings, lacings, eyelets and buttons also have advanced in price.

MUST PUT COVER ON RESERVOIR

State Board of Health Tells Elwood Company to do This or Disconnect Mains

LIKELY COMPLY WITH ORDER

Elwood, Ind., July 27.—Cover up or disconnect is the warning issued to the Elwood Water company by Dr. J. N. Hurty, secretary of the state board of health. The water company has received orders from the health board secretary to cover up its large reservoir near the city pumping station.

According to Dr. Hurty the Elwood reservoir is the only open one in the state which is now maintained in connection with a water works supply system and without a filtration plant. "Unless the reservoir is covered the state board of health, according to Dr. Hurty, will take steps to force the water company to disconnect its mains from the objectionable reservoir."

EVEN SKATES GOING UP

Indianapolis, July 27.—Indiana youngsters who have a proclivity toward roller skating are soon to think that war is just what General Sherman said it was, according to Indianapolis dealers in skates today. The prices of skates has gone skating upwards along with the price of beans and United States steel. Ball bearing manufacturers, who turn out the little steel pills that make skating a luxury for millions of kiddies before the war dogs of Europe were unleashed, have found a greater profit in making shells and paraphernalia for Mars. As a result there will be no more skates for some time except the slow, squeaky kind that are a terror to old women and sensitive ears as well as the children.

THIS EARL WAS NOT BAD SCOUT

American Tobacco Salesman Astonished Britishers by Showing Him How to Roll Bones.

HAPPENED ON LINER ST. LOUIS

Also Invited Him to "Have a Little Something"—Recently Returned From This Country.

(U. P. Staff Correspondent.) By J. W. PEGLER

London, July 3.—(By Mail)—An Earl isn't a bad sort of scout at all. Joseph Eichwald, a San Francisco tobacco salesman, called the Earl of Limerick "Earl," invited him to "have a little something" and got away with it while astonished Britishers gaped in amazement.

Further than that, the dice-box being handy, he taught the Earl to shoot craps and learned from him an equally fascinating British pastime with the dice.

It happened aboard the American liner St. Louis, from New York to Liverpool. Eichwald, long on conviviality but short on formal English etiquette, spied His Grace seated at a green-covered table in the smoking room. Two friends were with him.

"I'd like to ask the Earl to have a drink," he confided to his traveling companions.

"Well, why don't you?" asked one of them.

Eichwald did.

"Hey, Earl," he called across the room, "have a drink."

The Earl would, when he recovered from the momentary shock, and moved over to the American's table have it.

Eichwald's companions, an Australian and an American from St. Louis, began nudging the dice for sevens, "evens" and "points" for twelves. Eichwald, the Earl's co-star in the little smoking-room skit, sized the bones and faded the pair in silence. Then he talked to the dice.

"Oh-h-h! Ba-by dice! Turn over for 'pop-ah!' he pleaded. "Mm-mm, Dice! Oh-seven."

His Grace leaned over the table, watching the bones intently, trying to "make" the game. It was beyond him and Eichwald explained that "if you make seven or eleven on the first roll, you win; two, three or twelve you lose the 'fade' but not the dice" and on down through the intricacies of the negro game.

Then the Earl took the bones and the quartet shot an imaginative game in this method, with 50,000 pounds at stake on each turn. Eichwald scarcely downing an impulse to slap him on the back and call him "Limmy."

No, indeed; an Earl isn't a bad sort at all. The Earl of Limerick is a little round man, with a partly exposed pate, a sorrel, close-cropped beard, mustache and an inborn aversion to the poetical metre bearing the name of his line. Limericks, he said, were not invented by him, through wherever he visits he is called upon to tax his ingenuity to devise jingles about people whose names simply are not rhyme-able. "I have just been touring part of the States," he said. "I went to Newport and got as far west as Philadelphia. Next time I come over I am going to visit a gentleman in Dallas, banker who tells me Texas is a beautiful state. I am also going to visit the Grand Canyon and that valley I've heard so much about; the Yosemite."

CLAUDE ADAMS, Prop.

ARMY OFFICER
IS EXONERATED

Report Finds Lieut. Col. Butler Was
"In Line of Duty" When Shot
Last Week by Spannall.

WAS WITH LATTER'S WIFE

(By United Press.)
San Antonio, Texas, July 27.—The widow of Lieutenant N. C. Butler, slain by Harry Spannall, hotel proprietor in Alpine, last week, will receive a pension. The official report of Colonel J. A. Gaston, commander in that district, cleared Butler's name and assigned unreasonable jealousy as Spannall's reason for shooting his wife and Butler, it was stated today.

According to the army code, the fact that Butler had a "moral right" to be with Mrs. Spannall shows he died "in the line of duty," which must be proved if a soldier's widow is entitled to a pension. According to Gaston's report, Spannall had an argument with Butler about Mrs. Spannall prior to the shooting, after which Butler avoided Mrs. Spannall as much as possible.

President Wilson's Administration

Now Indicate

HIS FOLLOWERS DEFEATED

Washington, D. C., July 27.—The Washington correspondent of the Chicago Tribune, in a dispatch to his paper, says:

A stinging defeat was administered to President Wilson by the voters of Texas on Saturday.

Such is the verdict of official Washington, now that the returns from the Lone Star State, practically in all, indicate a straight out victory for the anti-Wilson men.

Wilson, Wilson's Mexican policy, and Wilson's foreign policy were the three chief issues in the campaign. The supporters of Wilson and his policies were beaten wherever there was opposition to them, according to the reports.

Former Governor Colquitt, basing his campaign entirely on opposition to Wilson and Wilson's Mexican policy, is far in the lead for the senatorial nomination.

Congressman-at-large McLeMore, basing his campaign on opposition to Wilson's Mexican and foreign policies, also is leading the race for the two positions of congressman-at-large.

Five Wilson-Democratic congressmen went down in their effort to win renomination by hanging onto the coat tails of the president. The Democratic congressmen who failed to get renominations were Callaway, Stephens, Burgess, Smith and Davis.

Notice of Improvement Resolution.

Rushville, Ind., July 16, 1916.
To Whom It May Concern:

Notice is hereby given by the common council of the city of Rushville, Indiana, that it is desired and deemed necessary to make the following described public improvement in the city of Rushville, Indiana, as authorized by Improvement Resolution No. 66, adopted by said common council on the 4th day of July, 1916.

Cement sidewalks, cement curb and gutter, and grading lawns on the east side of North Main street from the south side of Lot No. 123, Stewart & Tompkins addition, to the north side of lot No. 86 in Belmont.

All work done in the making of said described public improvements shall be in accordance with the terms and conditions of the said improvement resolutions and the detailed drawings, plans, profiles and specifications which are on file and may be seen in the office of the city clerk of said city of Rushville.

The common council of said city has fixed TUESDAY, THE 15th DAY OF AUGUST, 1916, as a date upon which remonstrances may be filed or heard, by persons interested in or affected by said described public improvement, and on said day, at 7:30 o'clock p. m., said common council will meet at the council chamber, in said city of Rushville, for the purpose of hearing and considering any remonstrances which may have been filed or which may be presented, and will hear all persons interested, or whose property is affected by said proposed improvements, and will decide whether the benefits that will accrue to the property, abutting and adjacent to the proposed improvements, and to said city, will be equal to or exceed the estimated cost of the proposed improvements, as estimated by the city civil engineer.

CARL E. GUNNING,
City Clerk.

Ephraim Kroot Files Suit Against
Fire Insurance Co. for \$1,200.

The case of Ephraim Kroot against the Connecticut Fire Insurance company and the Mutual Loan and Savings Company, on a policy, has reached the local circuit court on a change of venue. Kroot alleges that he carried a policy for \$1,100 on a building in Shelbyville and that it burned on February 27, 1916. So far the company has not made a settlement and he demands \$1,200.

FIVE SETS OF TRIPLETS
BORN IN JUST ONE FAMILY

(Pekin, Ill. News.)

When James Riley and his family of twelve children arrive in Pekin this month the Chamber of Commerce of this city will meet them and escort them to their new home.

This may seem an usual procedure, but it is not when the citizens of Pekin learn that the Riley family is the most famous in the United States.

Mr. Riley and his family have lived in Detroit. He came to Pekin several weeks ago and secured a good position at the Corn Products plant. He liked Pekin so well that he decided to move his family here and called on Phil Sipfle, secretary of the Commercial club to ask his assistance in securing a house. Mr. Riley will probably lease Mrs. Hall's home in the east end of the city.

The singular feature about Mr. Riley's children is the fact that they were born in four sets of triplets. There is no other family like it in the world. The first set consists of one boy and two girls, Charley, Carrie and Corie. They are eleven years of age. Then came Miller, Grace and George, nine years old; followed by Myrtle, Minnie and Frank, five years old; and Freddie, James and Hazel, three years old. The family consists of six boys and six girls. The father is 29 years old and the mother is the same age. He is a half-breed Indian and his wife is a French Canadian. Mrs. Riley's mother was a full blooded Choctaw Indian. He has lived most of his life in Canada and for the past four years has worked in Detroit.

While living in Detroit Henry Ford, the manufacturer of the Ford automobiles heard of Mr. Riley and called on him. He was so interested in the family, Mr. Ford presented Riley with a special made Ford auto that will haul the entire family.

Mr. Riley is greatly impressed with Pekin and says he knows his family will like to live here. He could not find a home but the secretary of the Association of Commerce has located a suitable home and the Rileys will soon be here.

Later, Mr. Riley was interviewed by a Journal representative late yesterday afternoon.

He stated that on July 5 of this month his wife gave birth to another set of triplets at Detroit. They now have fifteen children. Mr. Riley left last evening for Detroit and will bring his family here on July 20.

He said his wife was a twin child and he a triplet and that the famous doctors offer this as an explanation for his unusual and wonderful family.

Mr. Riley stated that his wife weighs 81 pounds. She is in perfect health and nurses her children. Her twin sister is with her constantly and takes care of the household.

He claims to have a grandfather in Texas aged 120 years and he will bring him to Pekin to live with them.

Mr. Riley is an electrician by profession and says he has no desire to go to Europe after the war.

ACCUSED A VICTIM

(By United Press.)

Olney, Ill., July 27.—Olney's "air murder" mystery was further complicated today with intimation from defense attorneys that Roy Hinters, farmer boy accused of murdering seventeen-year-old Elizabeth Ratcliff, Indiana farmer's daughter, is a victim for defense of another.

A boy was born to the wife of Claude Fowler, northeast of the city.

TO START TURNING
OFF WATER FRIDAY

Superintendent Mahin Has List of
Delinquent Water Consumers
From City Treasurer.

NUMBER IS NOT VERY LARGE

The list of delinquent water consumers is now in the hands of Superintendent Mahin, and acting under orders of the city council he will start turning off the water tomorrow. In all there were about eighty people who did not pay their water bills in the specified time and under the ruling of the public service commission the city has no option but to turn the water off and then collect an additional dollar if the bill is paid and the water turned back on.

The consumers had plenty of warning, according to city officials, and there is no excuse as to why the rule should not be enforced. The list of delinquents was prepared by City Treasurer Stech. The number was smaller than at first believed would result.

ENCAMPMENT HAS
BEEN CALLED OFF

U. R. K. of P. Gathering Can't be
Held at Nashville Because of
Disturbance With Mexico

CAMP SITE NOT AVAILABLE

Members of Ivy company No. 35, Uniform Rank, Knights of Pythias, were disappointed today when they learned from Captain George Coons that the national encampment, which was to have been held at Nashville, Tenn., had been called off. Capt. Coons received a letter from W. H. Loomis, major general. At the memorial and inspection here in June, the Third regiment decided to go on a special train.

Various reasons are assigned for this action. The only available camp grounds near Nashville are being used by the Tennessee state troops. The government had agreed to furnish the Uniform rank with camp equipment, such as tents and other things, but the calling out of the troops on account of the Mexican trouble makes this impossible. Also, it is stated that many U. R. K. of P. companies have been affected by members being called to the national guard and compelled to enter the United States service.
